RCLS 201 Stand Your Ground Assignment

Many of us have faced individuals who have doubted our choice to be leisure/recreation professionals. I receive numerous phone calls from parents asking me to justify while their child should get a degree in recreation. Personally, I cannot imagine myself in any other field for a multitude of reasons. I believe that it is important for each of you to be able to concisely and intelligently convey your feelings on the matter. For this assignment, please formulate a 750-1000 word paper that explains why you have chosen a degree in recreation. Be sure to include personal relevance, career aspirations, fulfillment, and any other concepts that apply to getting your point across. Please proofread your paper twice before submitting it. Points will be deducted for grammatical errors.
